

## 9th EUSSEER Cadaver Course Brussels Friday July 7th 2017

### Programme

Don't miss the opportunity to participate to the EUSSEER Cadaver course in Brussels with Professor Olivier Gagey and Professor Nicole Pouliart. They will explore the shoulder functional anatomy in live dissections. Edwin Duijn will give a demonstration of musculoskeletal ultrasound with direct connexion to the structures. At last, Jonathan Tresignie will explain the anatomy of the elbow on prosected specimen. This cadaver lab is organised in 4 groups of ten wich will provide interactions. The day will begin and end with 2 lectures on functional anatomy and the work-up for shoulder instability.

Number of participants 40

This course is in English with no translation
